

LIGHTING CONTROLS

Learn the way modern light is brought to life by lighting controls. Through educational sessions, exhibit floor features, and industry dialogue – join the conversation.

SUNDAY May 4

9:00 AM-4:00 PM Workshop: Writing Sequences of Operation and Control Intent Narratives for Lighting Control Systems

MONDAY May 5

9:00 AM-12:00 PM Workshop: Lights, LLLC, Action: Your Hands-On Guide to Smart Lighting Controls

1:00 – 4:00 PM Workshop: Advanced Lighting Construction Specification Writing

TUESDAY May 6

8:30 AM Design to Programming: Key Insights and Lessons Learned in Wireless Lighting Control System Implementation

9:45 AM Practical and Profitable Daylight Strategies for Lighting Designers Without Being a Programming Expert

11:00 AM Boost Energy Savings: A Fresh Take on Daylight Zones

12:00 PM How to Design a Lighting Control System

3:15 PM Keeping Up with Change

4:30 PM Demonstrating Interoperability and HVAC Integration: Exploring Open Standards in Action with Wireless LLLC

WEDNESDAY May 7

8:30 AM Two Curveballs for Lighting & Energy: AI & Mercury Lamp Bans

11:00 AM Lighting the Way: Designing Dynamic Learning Environments

11:00 AM Boost Energy Savings: A Fresh Take on Daylight Zones

2:00 PM Optimizing Bluetooth Mesh Lighting Implementations: A Comprehensive Design Approach

2:00 PM Energy Code Season of Change, Are You Ready?

3:15 PM Integration of Virtual Reality, Eye-Tracking, and Light for Relaxation and Postural Improvement

THURSDAY May 8

8:30 AM The Beauty of DALI Part-341 and Why It Matters

RECOMMENDED EXHIBITORS

#367	DALI Alliance
#1502	ENTTEC
#1253	IALD
#1321	Illuminating Engineering Society
#225	Keystone Technologies
#717	LEDVANCE
#1807	Nicolaudie America
#473	SATCO Products Inc
#224	Sensorworx

Recommended for Members of

Illuminating
